**LIVEDOT**  
TRACKING

# Como criar o XML Feed

- Com a sua conta SPOT aberta, clique em Settings & Billings

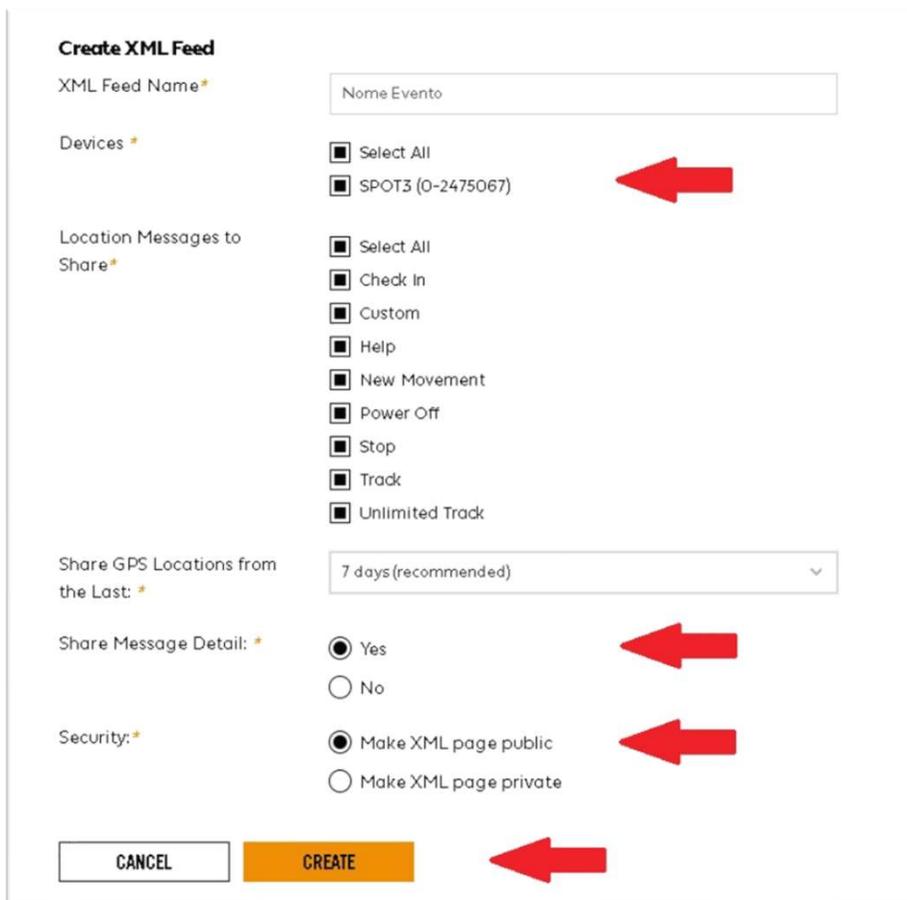

- Depois clique em XML FEED View/Edit

# Como criar o XML Feed

- Clique em Create XML FEED

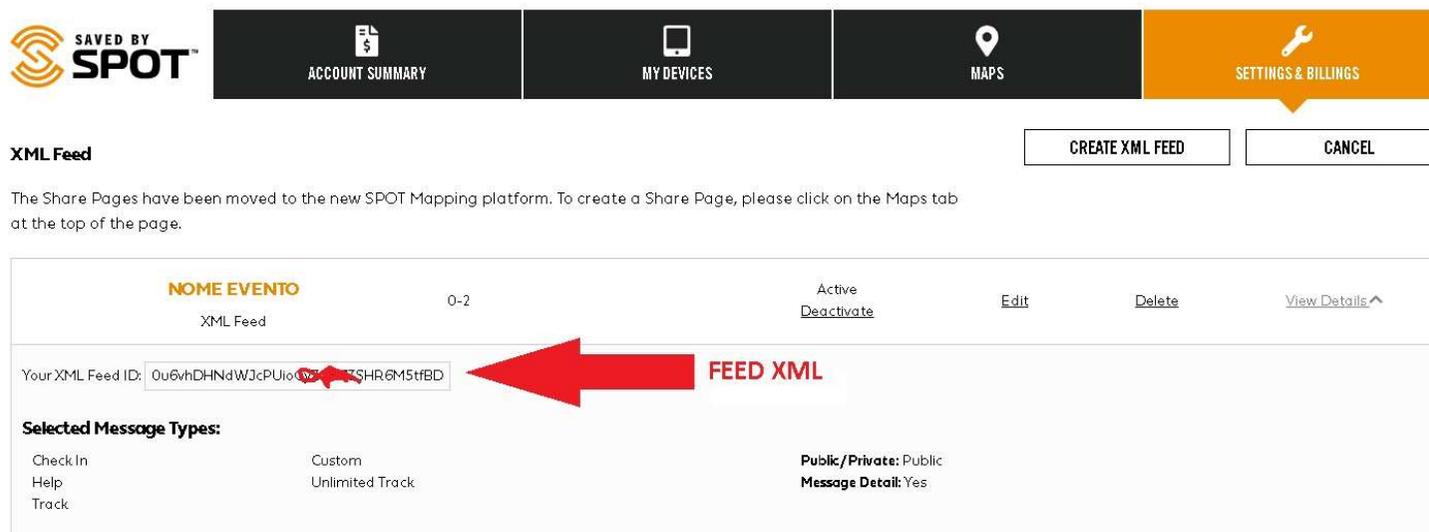

The 'Create XML Feed' form contains the following fields and options:

- XML Feed Name\***: Text input field containing 'Nome Evento'.
- Devices \***: List of devices with checkboxes. The 'SPOTS (0-2475067)' device is selected, indicated by a red arrow.
- Location Messages to Share\***: List of location messages with checkboxes. 'Unlimited Track' is selected, indicated by a red arrow.
- Share GPS Locations from the Last: \***: Dropdown menu set to '7 days (recommended)'.
- Share Message Detail: \***: Radio buttons for 'Yes' and 'No'. 'Yes' is selected, indicated by a red arrow.
- Security: \***: Radio buttons for 'Make XML page public' and 'Make XML page private'. 'Make XML page public' is selected, indicated by a red arrow.
- Buttons**: 'CANCEL' and 'CREATE' buttons. The 'CREATE' button is highlighted in orange and has a red arrow pointing to it.

- Nessa parte você fará a configuração do XML FEED.
  - Coloque o nome do Feed, marque todas as opções (inclusive todos os detalhes e por 7 dias).
  - Selecciona a opção: Make XML page public
- Clique em CREATE!
